## New Debit Card Management and Spend Tracking Within Our Eagle Express App!

Card management and spend tracking functionality will now be available from a single app - the same app you use for Eagle Express online banking.

Here's what you need to know:

Once the conversion is complete the CardValet app will be unavailable. You will no longer need to access this app and should delete it from your mobile device.

- Access the Eagle Express app - just log in as usual and the app will let you know what's new once it is updated.
- **IMPORTANT!** After the update, be sure to log in to the Eagle Express app and tap Eagle Express Cards. For users with My Location and Notifications previously enabled in the CardValet app, tapping Eagle Express Cards will ensure these features are activated within the new experience.
- Cards and controls will carry over from the previous app to our Eagle Express app. Please note, if you added a second card in your current app, that card may need to be re-added so you can see it; however, the controls will still be in effect. If you customized alerts, please review those settings in the new app.
- You can still use your cards during this app transition.

Is There Anything I Should Do Today?

If you haven't already, download our Eagle Express app today. Set up an account and login to become familiar with the app.

<https://apps.apple.com/us/app/eagle-express-fcu/id1176303170>

<https://play.google.com/store/search?q=eagle+express+fcu&c=apps>

Turn on automatic app updates on your phone so you get the new features as soon as they are rolled out.

Enable Live Updates in our Eagle Express app so you know what to expect and when.

Can I still use the CardValet App?

- We encourage you to try the new functionality within our Eagle Express app.
